THE CHESTER EXPLOSION.

Military Academy Burned — Over Fifty Persons Seriously Injured.

CHESTER, Pa., Feb. 17.—The Military Academy was burned this evening. Loss, $200,000, insurance, $75,000. A number of colored families lived in the old portion of the mansion. It seems that it first took fire, and while the firemen were playing on the flames a large crowd surrounded them, when an explosion occurred, scattering destruction far and wide. The number killed is between fifteen and twenty. About twenty dangerously, and fifty more or less seriously wounded. The dead are being laid in the City Hall and the wounded being cared for in the various drug stores. No accurate list can now be obtained.

MORE PARTICULARS.

Fourteen lives were lost by the explosion. Three persons were fatally injured and fifty, more or less, wounded. Part of the mansion had been used by Prof. Jackson, a pyrotechnist, for some years as a place for manufacturing explosive commodities. The firemen, after being assured there were no explosives in the place, went to work. After playing on the flames about an hour, a terrific explosion occurred. The bodies of the men were thrown in every direction. The

Many lay insensible to their surroundings, and others,

BRUISED AND BLEEDING,

WASHINGTON.

The Apportionment Bill Finally Passed.

Tour of Inspection—First State Dinner—Fitz-John Porter—Anti-Polygamy Bill Passed—A Memorial.

Associated Press Dispatches.]

WASHINGTON, Feb. 17.—In the House to-day during the discussion on the apportionment bill, the question recurred on a substitute offered by Page, of California, providing that the House shall be composed of 319 members. This Page decided to withdraw, but as it was favored by a number of Democrats, objection was made. It was rejected, however—yeas 99, nays 148. The previous question was then ordered on final passage of the bill, pending which Colerick, of Ind., moved to recommit, with instructions to the Committee on Census to report the provision that in any State where the number of representatives is reduced, it shall be lawful for the Governor, after the State shall have been redistricted, to provide for a special election. The motion to recommit was lost—yeas, one hundred and seven; nays, 142. The bill then passed without division. The bill provides that after the 3d of March, 1883, the House of Representatives shall be composed of 325 members to be appointed among the several states. The representation of the several states are as follows: Arkansas, 5; California, 6; Colorado, 1; Conneticut, 4; Delaware, 1; Florida, 2; Georgia, 10; Illinois, 20; Indiana, 13; Iowa, 11; Kansas, 7; Kentucky, 11; Louisiana, 6; Maine, 4; Maryland, 6; Massachusetts, 12; Michigan, 11; Minnesota, 5; Mississippi, 7; Missouri, 14; Nebraska, 3; Nevada, 1; New Hampshire, 2; New Jersey, 7; New York, 34; North Carolina, 9; Ohio, 21; Oregon, 1; Pennsylvania, 28; Rhode Island, 2; South Carolina, 7; Tennessee, 10; West Virginia, 4; Wisconsin, 9; Alabama, 8; Texas, 11; Vermont, 2; Virginia, 10.

A TOUR OF INSPECTION.

WASHINGTON, Feb. 17.—Gen. Sherman, accompanied by Gen. Pope and Col. Morrow, will leave the first of March for a tour of inspection to the Departments of Texas, New Mexico and Arizona, visiting all the principal parts of the frontier of these States. Visits will also be paid to Yosemite valley and San Francisco.

SENATE ADJOURNED.

After considering several bills on the calendar without action, the Senate agreed to adjourn over until Monday, and then ordered an executive session.

POSTAL SAVINGS BANK.

The Postal Savings Bank bill will be reported favorably to the House.

APPORTIONMENT BILL.

Springer moved to reconsider the vote by which Colerick's amendment to the apportionment bill, was rejected yesterday. The amendment provides that the Governor of any State may call a special election when the Legislature fails to redistrict the State before an election of representatives. The House tabled the resolution, 130 to 114, yeas and nays, and then ordered, on Colerick's substitute, fixing the number of representatives at 316. It was rejected, nays 154, yeas 94.

A MEMORIAL.

A memorial, numerously signed by merchants of San Francisco, asking that steps be taken for the release of McSweeney, of that city, an American citizen now confined in an English jail, has been received by the California delegation in Congress, and forwarded by them to the Secretary of State with their added request that the subject be given early investigation and attention.

FIXING THE MEMBERSHIP.

Anderson's substitute bill fixing the membership of the House at 315, will, it is generally conceded, be finally passed in the House to-morrow. It is about the same as the bill passed by the Democratic House last year, except that it provides for six more members. These six additional members are given one each to New York, Iowa, Wisconsin, Kansas, Texas and South Carolina. The Democrats say it is a fair bill, and they will support it.

ARTHUR'S FIRST STATE DINNER.

President Arthur gave his first state dinner last night at the Executive Mansion to thirty-seven guests, including the heads and acting heads of various foreign legations at Washington.

THE ANTI-POLYGAMY BILL PASSED.

After a long discussion in the Senate, Edward's Anti-Polygamy bill passed last night by a viva voce vote. No negative responses were heard when the final vote was taken.

FITZ-JOHN PORTER.

The Cabinet to-day considered Fitz-John Porter's case, and stated that the only legal redress is for the President to pardon Porter, thus removing disqualifications from holding office, and then restore him to army renomination.

THE LOS ANGELES DAILY TIMES will be sold on all the trains of the Southern and Central Pacific Railroads; also on the Atchison, Topeka & Santa Fe and Texas & Pacific road.

Arrangements are now being perfected to have the TIMES placed in the reading rooms of the leading hotels in this and the Eastern States.

CROAKERS.

There are two sets of croakers who infest our section of country, and if ever the gopher poisoner comes around we are bound to give him a job. One class of croakers are eternally whining about the weather, and drivelling about scant rain-fall and no crops, and the worthless fellows never planted a spud and don't know the difference between a cabbage head and a head of barley. They toil not, neither do they spin, but Job at his worst estate was no comparison as a growler. They cannot see our prosperity in the past nor present, and are in perpetual doldrums for the future. We never see them without thinking our undertakers should consider their cases when selecting subjects for funerals.

The other class is the Democratic growler, and generally an editor. They are in their own opinions oppressed with wisdom, but what they know prevents them from knowing what they ought to know. They sit in peace under a vine and fig tree that another has planted, but brood over the ruin the Republicans have wrought and are still planning for the future. They are stubbornly blind to the signal prosperity that everywhere abounds, and notwithstanding that our prowess and means of transportation have subdued our enemies at home and made us impregnable from attacks of foreign foes, if we had any, they see our land a prey to invaders on every hand. They have not learned that our mission is peace, and that the defence of the glorious old flag is in the stout hearts and brawny muscle of the working men of the land—men who do not invite a quarrel by boasts of strength and standing armies to eat up the substance of the people. Our defence is in the hands of a people who have never yet failed to respond when there was danger that the old ship would go down, and have saved her every time. Let us be contented with this, and bury the croakers, and enjoy our peace and prosperity while we have it. We can rely upon the intelligence of the people for correct legislation to guard our interests at home, and to the wisdom of the rulers they may select for a foreign policy that shall earn the respect of all nations, without sacrificing any of the dignity that should characterize a leading power of the earth.

EASTERN FLOUR MARKET.

Now come the millers of California to the front and aver that from the favor with which their flour has met in St. Louis and other eastern markets that our State has an ample field for its surplus in the Eastern States when we have a freight rate low enough to enable us to place the flour there on an equality as to price with the eastern article. The San Francisco Examiner calls loudly upon the railroad company to come to the aid of the millers, and through them the people, of the wheat growing sections, and give a rate to the east that will enable us to sell our surplus products. And in this connection comes a thought of the Isthmus Canal project, which should afford us a cheaper freight than the railroad people say it is possible for them to give. We have heard of our products going east from San Francisco via. Cape Horn, for ten dollars per ton. This is cheaper than the railroad can possibly do it. The canal across the isthmus should give us a rate as low as via. Cape Horn. and we should think lower, and it is probably to this route we are to look for the low freights which are the great want of the Pacific Coast, but we shall hope the railroad management will be able to help the millers to a reasonable extent while we wait for the canal.

THAT PANIC.

"It is not yet clearly outlined as to whether the failure of L'Union Generale is going to result in an extended panic. Confidence has been at least partially restored in Paris, but gold still keeps going out of the United States—an ominous sign. It shows that American securities are being realized upon, and if the tendency is not checked disaster is not far distant, though it is to be hoped the visitation will be confined to the speculators in wild cat railways."

The above is taken verbatim from a morning contemporary, and would have but little significance were the paper not owned by a monied corporation. It would not be easy to find another paragraph so full and replete with financial nonsense. L'Union Generale was simply a blue blood bourbon anti-semitic concern, not governed by the first rules of prudence or financial acumen. It promptly yielded to the first assault, and has had but little effect in disturbing the business of Paris, to say nothing of France, Europe and the civilized world. If a panic were possible, such foreshadowing of interested parties will be the cause. Such twaddle is cruel and unjust. The prosperity of the United States is legitimate, and its railroad progress is not in advance of necessity. We received 800,000 immigrants last year of a most excellent class, enough to compose a respectable sized nation. They are supposed to have brought with them $400,000,000, to say nothing of what they have produced and enhanced the value of city and country property. If American securities have been realized we are glad of it. We want it all at home; and the day is not far distant when we will not only not want foreign capital, but we will be ready and willing to extend aid to the enterprises of American Republics in the proper development of their wonderful resources. There will be no panics, except such a tempest in a tea-pot as our contemporary announces.

REDISTRICTING THE STATE.

Under the Congressional apportionment bill, which must soon become a law, the duty of redistricting California will fall to the Legislature. The State will probably be divided into five Congressional districts, instead of four, as now, with, perhaps, an additional member at large. The work of redistricting should be done honestly and without any attempt on either side to gain party advantage, by a resort to the disreputable trick of gerrymandering. The day for that sort of thing is, or ought to be, past. One of the apportionment bills before Congress, contains a provision prohibiting this practice, requiring districts to be composed of contiguous territory, and to be shapely as far as possible. It is a good provision, and its enactment into law will forestall much legislative and political deviltry.

The dispatches of this morning bring the intelligence that the apportionment bill has passed the House giving California six representatives.

An able correspondent, writing to an Eastern paper from the marvelous city of Gunn, otherwise Bayncliмate, makes the following amazing statement: "The four-masted Trafalgar sailed up the bay in gallant style, in broad daylight; with 39 miles of rails, drawing 23 feet of water." We suppose there is not another spot on the globe, outside of the phenomenal bay of San Diego, where twenty-nine miles of rails would draw but twenty-three feet of water. It's 'stonishing; and in broad daylight, too!

BAD MEN.

Wife-Beaters Arraigned Yesterday.

Henry Armbuster was arraigned before Judge Fisher yesterday for threatening to kill his wife, and pleaded not guilty. His trial was set for Tuesday next at 2 P. M. It seems that all the cussedness in the composition of Los Angeles married men is coming out in this line of business.

The weeping painter, named P. Hayman, who whipped his wife the other day, because his baby cried, was arraigned before Judge Adams yesterday, and had the cheek to say he was not guilty. His trial was set for Tuesday next at 2 P. M.

THE ORANGE MURDER.

Hulse Held to Answer Before The Grand Jury—Rain.

SANTA ANA, Feb. 17.

Hulse had his examination before Judge G. E. Freeman this morning; Dr. J. G. Bailey, Anton Willmann, and W. L. Rubottom were the only witnesses examined, and those only sufficient to show that Reuter was dead, Hulse shot him in Orange on Wednesday morning and that Reuter had hold of him at the time. Counsel on both sides decided not to ask more questions or examine more witnesses until coming before the Grand Jury next month. Hulse was then committed to the care of the Sheriff and goes to Los Angeles jail on this noon train.

We had a beautiful heavy rain all last night. REPORTER.

The Ancon's Passengers.

The steamer Ancon left for San Diego yesterday, carrying the following passengers: S E Muller, w & 4 sons, A W Francisco, w & dtr, Major P E Holcomb, Geo P Clark, w & dtr, A B Sperry, R Huntley, Rev Father Ubach, C R Graves, w & dtr, Mrs M J McCrea & boy, L Murr, S K Klinsfelter, H Graves & w, Mrs Griffin & dtr, Ezra Rowen & w, Geo C Place, A McNally, S D Barrett, Miss P Levy, Miss Ida Thompson, J P Finley, Ed Wolf, H Wolf, W J Franche, Miss A Johnson; five in steerage.

The Reaction.

Messrs. Kysor & Morgan report that in a number of instances where parties had postponed further action on projected buildings until later weather developments, the reaction is marked since the last series of rains, all fears being now dispelled; and with every indication of an unprecedented boom of business prosperity the architects of Los Angeles will doubtless be fully occupied during this year at least.

THE GAS CONTRACT.

Its History as Shown by the Transcript in the Case.

EDITOR TIMES: As many of those citizens who are desirous that the treatment of the Gas Company by the city should be just, and even generous, may be resting in the belief that the refusal of the city to pay for the lighting of the streets as stipulated in the contract, and that the decision of the Supreme Court, sustaining the city in its refusal, was founded upon a technical defect in the contract itself or some informality in its execution or irregularity in the proceedings of one or the other or both of the parties to the contract prior to its execution, it is herein proposed to present to such citizens a history of that contract, gathered from the records in the matter.

The word contract is used in this article for an *instrument of writing* prepared and ready for the signatures of the parties thereto, or for such instrument after execution.

THE CONTRACT.

Subsequent to the 29th day of January and prior to February 5, 1881, a committee of the Council waited upon the President of the Gas Company and received from him three distinct proposals for lighting the streets, one of which was for the term of one year, another for two years, and the other for three years. Neither of these proposals were accepted by the Council. On February 8, 1881, the Clerk of the Council advertised for proposals for lighting the streets. On the following 19th the Gas Company sent in a proposal to light the streets. At a meeting of the Council on the same date the proposal of the Gas Company was rejected. But the Council at that meeting, by a vote of seven to six, resolved that an agreement, dissimilar to the proposals of the Gas Company, should be made with the Company, although the President of the Gas Company, being present, informed the Council that the Gas Company would not enter into such proposed agreement, and the Council then and there instructed the City Attorney to draft a contract with the Los Angeles Gas Company, containing such conditions as the Council had resolved upon. The City Attorney drew up the contract and it was

BEFORE THE COUNCIL

At a subsequent meeting, March 5th, for consideration, when Cohn, of the Finance Committee, reported that the contract was correct and that it was in accordance with the action of the Council at its last meeting. The contract was then read, and, on motion of Cohn, it was changed so as to read from April 1st, instead of from March 1st, 1881. It was then moved by Kuhrts that the form of the contract be approved, and the Mayor authorized to sign the same, which motion was lost by a vote of seven to eight. The Council, after rejecting this contract, proceeded to consider and agree upon the terms and conditions to be incorporated into a contract. These proceedings, or the record of them, the Clerk calls a new document, which, "on motion, was approved, and the Mayor authorized to sign the same on the part of the city, by a vote of fourteen ayes to one no." It should be observed that at the time this vote was taken there was no contract before the Council for consideration, as the one drawn by the City Attorney had been rejected. At this point of the history, the contract drawn up by the City Attorney, together with that, whatever it was, which the Clerk calls

A NEW DOCUMENT,

And which, although it had no existence, the Mayor was ordered to sign, disappear from the record. This socalled new document does not appear to have been sent to or received by the Mayor. Subsequently to this meeting, and within the following week, the Secretary of the Gas Company went to the office of the Clerk and examined the record which the Clerk made at the meeting of the Council on March 5th and the Secretary of the Gas Company, then and there, wrote a contract. This contract, without ever having been seen by the Council, much less read and acted upon by it, was presented to the Mayor to be signed by him on the part of city. There was no certificate or endorsement upon it, nor any signature to it, by which he could know that it had been sent him by the Council, or that the Council had in any way authorized the making of such a contract, or had any knowledge of its contents. It was not in the handwriting of the City Attorney nor of the Clerk of the Council, or any officer of the city, nor was it signed by any one on the part of the Gas Company. This contract was sent to the Council by the Mayor, accompanied with

A MESSAGE

giving his reasons for declining to affix his signature thereto. At the meeting of the Council March 19th, this message from the Mayor being under consideration, Chandler moved that the message be received and filed. Cohn, as a substitute, moved that the Clerk of the Council be ordered to sign the contract on behalf of the city. This latter motion was lost. There were six ayes and four noes. Something was then temporarily laid on the table. What it was that was thus laid on the table does not appear. It could not have been Cohn's substitute, because that was lost. If it was Chandler's motion it is probably still on the table, for nothing further is heard of it or of the Mayor's veto message, which does not appear to have been received, considered or filed. Neither was there any attempt made to reconsider and repass, by the Council this contract, as is provided in cases where the Mayor returns an act of the Council, without approval. Subsequently at this meeting and apparently after the Council had been re-enforced, Cohn moved that the said contract be signed by the Clerk of the Council on behalf of the city. This motion was carried by a vote of eight ayes to five noes, and the Clerk signed the contract

FOR THE CITY.

There is no reason assigned why Cohn's first motion that the Clerk should sign the contract was declared lost when there were six votes in favor and only four against it. Eight members form a quorum of the Council and is a sufficient number for the transaction of the ordinary business of the Council, and a majority vote of the quorum is all that is requisite for such business of the Council.

The Ullman contract, which the ex-President says was approved by a vote of fourteen to one, was *not written* until some days after that vote was taken. Fourteen members of the Council voted to make an agreement with the Gas Company. When that proposed agreement became a contract and was before the Council for consideration, only eight members voted for its execution.

The record history of this case shows that Mayor Toberman, instead of opposing the payment of the Gas Company's bills for lighting the streets, has at all times been ready and willing to give his official sanction to their payment. That the Gas Company refused to accept payment unless the payment was accompanied by a surrender of the liberty of the city in the matter of lighting the streets. That the Mayor has carefully refrained from giving his official sanction to an act which would for the space of two years prevent the city from procuring the better lighting of the streets and at less cost than was furnished by the Gas Company. That he has labored and spent his money in defence of the city against the unlawful and exorbitant demands of the Gas Company, and that if the Gas Company finds itself without legal means to enforce payment from the city, it is only owing to its own attempt to subject the city of Los Angeles, as most of the cities of the United States have been subjected, to the power of and to the extortionate demands of a gas company.

LOS ANGELES DAILY TIMES.

ABOUT TOWN

Mr. Gough, conductor of the Santa Monica train, reports a fine shower at the "city by the sea."

The Eagle Corps will turn out in uniform on Wednesday the 22d, in honor of Washington's birthday.

Ponet & Orr have connected their establishment with the telephone system and will promptly attend all messages received by telephone.

C. W. Wilson, the sewing-machine man, reports a very heavy rainfall at Downey Thursday night, and the farmers are correspondingly happy.

The card of Mr. James T. Hoblit, attorney at law, appears in "New To-day." The public will find him thoroughly competent, courteous and reliable.

J. R. Millard is manufacturing a wind mill for the old Cutler place, in Florence district, recently purchased by Mr. Brigham, a newcomer from the East.

Don Estavan Sanchez, an old and respected Spanish-American citizen, died on Thursday and was buried from the old Catholic Church yesterday at 4 P. M.

A grand shooting match will commence at the Ballona at noon to-day. The two companies will be marshaled by Commodore D. J. Foley and Constable E. A. Ling.

Mr. L. Harris of the Quincy Hall Clothing House is receiving large consignments of new goods already. He says the bottom has dropped out of the recent scare.

J. M. Thomas, of the Laguna ranch, reports that the feed is up in good shape. Sheep have all they require, and no further fears are entertained with reference to the crops generally.

It is reported that Major Dunsmoor has purchased F. J. Gillmore's interest in the Dollar Store and will carry on the business. Rumor says also that Mr. Gillmore will turn granger.

A young German tinsmith who works on Spring street, not a mile from the postoffice, is preparing to lead to the altar of Hymen one of the fair young maidens of this city. More anon.

Dillon & Kenealy not only import their goods direct from European manufactories but secure through bills of lading also. This enterprising firm expect some very heavy consignments of imported goods in about a week.

The old rule is three frosty nights and then a rain. It held good prior to our last let-down, and if a repetition should occur after the last and two more cold nights have passed, the TIMES will not be found growling about it.

Mr. Ducommun's rain gauge registered sixty-nine hundredths for the twenty-four hours up to yesterday morning, and that of Mr. Bliss seventy-six hundredths. The total fall for the season, according to Mr. Ducommun's gauge, is 5.13 inches.

The weather of last evening was designedly gotten up for the benefit of visiting friends from the East. The TIMES was afraid some might get homesick, and a homœopathic dose of what they take allopathically at home was specially ordered.

The programme of the entertainment and ball of Confidence Engine Co. No. 2 appears in "New To-Day." The boys have made prodigious efforts to make this entertainment surpass every previous effort. It is to be hoped they will be favored with a crowded house.

We had a glimpse at the Perry concert programmes yesterday. They are handsomely gotten up, in keeping with other features of the affair, and are ornamented with a handsome lithograph likeness of the beautiful singer. They will be valuable as souvenirs to those who attend.

Mr. J. P. Finley, one of the proprietors of the Pacific Manufacturing Co., manufacturers of burial cases and undertakers' supplies, San Francisco, is in the city, and expects to remain in this vicinity a couple of weeks. Their manufactory at Santa Clara is the most extensive on the coast.

Bower & Baker of the Los Angeles Foundry and Machine Shops, report that they have witnessed a marked increase in business during the past week. They will shortly make a specialty of mining machinery of every description. They are now making improvements in Mr. Coulter's woolen mill machinery.

Hay is slowly but surely decreasing in price and is now sold from $20 to $25 per ton. Farmers report that there is already on the bottom lands sufficient feed for stock, and that barley is about four inches high. The rain of yesterday and last night will doubtless fully develop the struggling vegetation on the mesa lands.

Messrs. McFadden & Serrott, two Los Angeles boys who have for the past year been managing Woodhead & Gay's store in Tucson, are about to open up for themselves in the same line of business. They have been very successful in managing for their employers, and it is sincerely hoped that they will prove equally so for themselves.

Miss Minnie J. Hall, daughter of Col. T. S. Hall, was laid to rest yesterday. The light of another household has gone out. Miss Minnie had just budded into womanhood, and was the joy and pride of her parents as well as the center of a large circle of friends. The Colonel and his family have the sympathy of the whole community.

A man named Rinaldo Wigle, a resident of Windsor, Ontario, Canada, here for his health, died at the White House yesterday morning. The body is at Ponet & Orr's establishment. Dr. Widney reports that his death was caused by cancer. His relatives have been notified by telegraph of his death, and asking what disposition to make of the body.

PERSONAL MENTION.

The genial boot and shoe dealer, Albert Weihs, will lead a handsome Main street widow to Hymen's altar in two or three days. They will spend the honeymoon in the northern part of the State. Cupid's darts are falling thick and fast these days. Next.

Mr. H. L. Pierce, ex-Sheriff of Lincoln county, Illinois, is visiting Los Angeles and vicinity. He is very favorably impressed with Southern California and will probably locate in this vicinity.

Mr. J. A. Dresser, late of the Vallejo Chronicle, an old and able newspaper man, is in the city on a tour of inspection and pleasure. He made the TIMES office a pleasant call yesterday.

W. H. Norway, U. S. Deputy Surveyor, is at the Cosmopolitan, fresh from Santa Barbara. He reports crop prospects fair in that section.

Alexandro Reperto, who owns part of Laguna ranch, has just sold three thousand ewes for $1.90 each to a Mr. Brown of Texas

Ed Huber, Deputy Sheriff of this county, has gone and did it—all on the sly.

Mrs. J. McCrea and son left on the Ancon yesterday afternoon for San Diego.

Rainfall.

Capt. Bliss, who by the way is an ardent friend of J. P. (that is the rain man), gives us 0.76 as the entire rainfall of the 16th and up to the evening of the 17th.

IN DOORS AND OUT.

The Regular Weekly Sporting News at Home and Abroad.

A Big Hunt Proposed by the Los Angeles Club—They will Meet To-Day and Kill Hundreds of Ducks.

The big hunt that was to have come off a week ago to-morrow did not take place. The Los Angeles Sporting Club have made all preparations and will have a great time to-morrow. About sixty of them will start out and when they get to the hunting grounds the Club will be divided into bands of two, with a captain each. They will toss up for choice of ground, and murder will begin among the wily duck. D. J. Foley will act as captain of one wing and R. A. Ling of the other. The crowd which comes out behind (it is said by some of the hungry ones) in the number of game killed will have to put up for a champagne supper on their return to town. They will meet at Ballona at 2 P. M. to-day. This will be the biggest hunt of the season, as they will be out for three days.

ATHLETIC.

The Los Angeles Club is progressing rapidly. Quite a number have joined during the past week.

A class for Greek and Roman wrestling is a new attraction at the Olympic Club in San Francisco.

The Yale College crew have decided not to accept Harvard's proposition for an annual athletic meeting.

Geo. Littlewood, of Sheffield, England, has made a match with Henry Carless, of Millwall, for a six days' race. The match will commence February 20th, at Birmingham, Eng.

The Mutual (amateur) Baseball Club has reorganized for the season of 1882 with the following players: Curley, Martin, Ambuster, Cooney, Arnold, Mooney, Fogarty, Mullen and Donahue.

The Metropolitan Baseball Club is thus made for 1882: Lynch and Doyle, pitchers; Clapp and Reipschlager, catchers; Reilly, Larkin and Hankinson on the bases; Nelson, short-stop; and Mansell, Brady and Kennedy in the outfield.

In O'Leary's walking match at Nashville, Tenn., the veteran pedestrian had it all his own way during the last half hour of the contest. Dobler left the track at half-past ten o'clock. At the wind-up the score stood: O'Leary 291, Dobler 280, Glinen 261, Carson 255. So far as the record is concerned the contest was a farce, and in a financial point the affair was a failure.

NOTES.

A fisherman from Santa Cruz was recently fined $50 for fishing for salmon with a seine between Saturdry evening and the morning of Sunday. The crime was committed at the mouth of the Pajaro river. The law is a good one, as it allows the fish a day and a half to reach their spawning grounds.

A golden eagle was killed on the Reavis Ranch, near Chico, lately, while trying to carry off a dog. It measured seven feet from tip to tip of the wings.

A GOOSE STORY.

Nick Hanson, the 13 year old lad of W. P. Hanson, a well-known farmer living a few miles southeast of town, took his gun, says the Willows Journal, and went out hunting recently. He saw a large flock of geese off a few hundred yards in the field helping themselves to the young grain that was just sprouting. Nick concluded that he would break up that picnic party, and got down on his knees and quietly crawled up to within good shooting distance of the feathery pests. He cocked both barrels, leveled his gun at the flock, and discharged both barrels simultaneously, killing 34 geese. This story may be doubted by some, but its truthfulness is asserted and vouched for by Mr. W. P. Hanson, one of our best known and most highly respected farmers. To say the survivors of this feasting party were the most surprised lot of geese that ever came from Goose Lake but feebly expresses it.

SHORB IN COURT.

The Fifth Day and no Signs of Closing.

The fifth day's siege in the Shorb examination was begun at ten o'clock yesterday morning. Mrs. Schlador, the landlady where the poor girl died, was recalled by the prosecution for the purpose of proving that the deceased believed she was dying when she made the statement that Shorb performed the operation. She was very positive that the girl believed she would not get over it. This is one of the principal points made by the prosecution, and unless they can prove that the deceased believed she was in a dying condition some of the best evidence will be ruled out when the case comes before the Superior Court.

Her husband was sworn and testified to the same facts as at the Coroner's inquest. About one o'clock in the afternoon the court adjourned until two this afternoon. The officers have been looking for one of the material witnesses for the people. It is believed by many on the street that a screw is loose somewhere. The officers think they will capture the witness before the court opens to-day. The defense will have to show their side of the case on Monday.

MULLER VS. SMITH.

How a Would-be Merchant Gets Away with a Brother Would-be.

The Smith-Muller case was called in Judge Adams' Court yesterday afternoon. It will be remembered that a few days ago Muller was arrested on complaint of Smith. Smith alleged that Muller had proposed a small dry goods business in this city, Smith to put up one hundred dollars immediately and Muller to put up thirteen hundred within a few months. Poor Smith put up his share and Muller went up to San Francisco to buy two or three hundred thousand dollars worth of striped stockings and other traps, but forgot all about it when he got there, and had a good time for a few days. When he returned to the neighborhood of Los Angeles Smith smelt a "lat" and had his partner arrested. The arraignment was set for yesterday. But when the attorney looked at the complaint he saw at once that the attorney who drew it up had made a "bull." The Court of course discharged the defendant, who was watching the proceedings with the eye of an old criminal. No sooner had the words "prisoner discharged" issued from the Court's ruby lips before the defendant's coat tails were seen flying out of the door. He is probably in Arizona by this time, as he had a pass by the S. P. R. R. for that country.

A Grand Hotel and Theatre.

As an indication of the renewed activity in real estate and building operations the TIMES takes great pleasure in mentioning the fact that Mr. Nadeau has sold the fine property corner of Spring and First streets, to parties recently from Denver, for $35,000. A fine three-story brick building, 120x160 feet, will be erected at once, comprising fine, commodious stores on the ground floor, a first-class hotel on the corner of Spring street, occupying the second and third stories, and a commodious theatre facing First street. This is evidently the first of a series of elegant and substantial buildings to be built within the next three months.

The WEEKLY MIRROR is out to-day. It is a large, handsome, fifty-four page paper, full to repletion with news and miscellany. M. E. Church Social.

The regular monthly social of the Fort Street M. E. Church was held last night. The ladies of this church always do their best to make everybody happy, and they succeeded last night in the most approved style. An excellent literary and musical programme was carried out.

The Ivy Social.

Last night was a good cold night for dancing, at least the young folks who assembled at Odd Fellows' Hall thought so. The Ivy Club socials are very popular and are always largely attended.

WATER.

A Special Meeting of the Council Yesterday.

The Water Rate Taken Up and Considered, but no Conclusion Arrived at—Speeches, Etc.

The Council met yesterday afternoon as a Committee of the Whole to fix the water rates. President Moran presided.

A committee was appointed consisting of Messrs. Cohn, Moore and Mullaly, to act on an ordinance prepared by the City Attorney, to report at the regular meeting this evening.

I. W. Hellman, one of the Directors of the Water Works, was permitted to make a few remarks on the water rates. He stated the condition of the Water Works and said that about four hundred thousand dollars had been expended up to the present time; that the stockholders were not making a cent; a dividend has not been declared for the past three or

FOUR YEARS;

The President and officers were not receiving any salary at all; most of the stockholders were citizens and have been working for years to make the Water Company of this city one of the best in the State; the rates paid by the people here are lower than any city in the State.

Col. Godfrey then took the floor and said that he supposed the Council and the Directors of the Water Company had met in conference to fix the water rates for the best interests of the citizens and the Water Company. When this company leased the water works the work done by the city had only cost sixty thousand dollars. The dam was washed away and the old wooden pipe rotted and the company in a few months found that instead of leasing property valued at sixty thousand dollars they had to make new ditches and put iron pipes in the streets. The principal cost to the company has been the laying of the pipes. The Council has no right to cut down the water rates so low that the company cannot keep up the work. They cannot put the rate lower than when

THE CONTRACT

Was made between the company and the city. The Water Company does not want to go to law about the matter, but can and will have justice. The Council has the right to fix the rates, but has no right to reduce the rates and fix them lower than when the contract was made in 1868. He did not believe that it would be legal nor right for the Council to put the rate lower than it has been for past years. He referred to the proposed schedule offered by Mr. Cohn and said that it was unequal and unjust, and would make the income of the company at least six thousand dollars less than at present. He claimed that the Council could not place the pipes in tenement houses less than two dollars per head.

Mr. Cohn moved to adjourn.

Adjourned until to-day at 6:30 P. M.

MASHER.

He Smells a Mouse and Skips the Town.

It was stated in the TIMES yesterday morning that a warrant was out for the arrest of the masher who insulted a lady the other night. It now falls out that the festive masher tumbled to the little racket on the part of the police and skipped for unknown parts. Just before the complaint was handed to an officer he learned the fact in time to get out of town. The last time he was seen was at one of the public schools where his boy was, and gave him a twenty dollar piece. Since then he has not been seen and the chances are that he has put several miles between himself and this city.

Two men discussing the wonders of modern science: Said one: "Look at astronomy, now; men have learned the distance to the stars, and with the spectroscope they have even found out the substances they are made of." "Yes," said the other, "but strangest of all to me is how they found out all their names!"

It appearing to the Judge of said Court by the petition this day presented and filed by E. F. G. W. And that a copy of this order be published at least four successive weeks in the Los Angeles Daily Times, a newspaper printed and published in said County.

FOR SALE,

A ONE HALF INTEREST IN THE

Horne & West

ELECTRO-MAGNETIC BELT.

THIS IS THE same belt which is now manufactured by W. J. Horne, and which he is extensively advertising as the W. J. HORNE BELT. This Belt was invented and patented by myself. Afterward I assigned one half interest in this Belt to W. J. Horne, which he now owns in common with me. This Belt has taken two premiums at State Fairs; but as I have invented another BELT, of double the power of the HORNE & WEST BELT, and much superior to it in every respect, and which I make and sell for ONE HALF the cost of the old Horne & West Belt, I will sell my one-half interest, in the Horne and West Belt cheap for cash. Greatest Wonder of the Age!

THE NEW Electro-Medical BELT,

Curing All Diseases Without Medicine.

C. N. WEST, the inventor and half owner of the "Horne and West Belt," has invented another belt, so much better and cheaper, that it will supersede all other electrical appliances for the cure of disease. We challenge the world to produce its equal—Physicians approve and use it.
